		24	5985	5985	5985	8379	2690

All prices are in USD

We also offer FREE Gauges Controls (source code is available for purchase).

Product	Subscription Length (in months)*	WPF & Silverlight	Source Code (also included in the source code of Gold and Premium packages)
Gauges Controls	N/A	0	500

All prices are in USD

***Subscription length** indicates the time during which you will receive unlimited technical support and updates. Subscription expiration ends these services. You can extend them by purchasing a subscription renewal.*

***Off-line (manual) activation** service fee (when the subscription has expired): 100 USD/activation.*

Benefits of the Source Code subscription:

- Full C# source code of the libraries. No inaccessible C++ parts.
- Modify the library and build a custom version.
- Optimize performance of your application when running without code obfuscation.
- See clearly where CPU and GPU power are spent.
- Instant access to source code, no need for escrow service.
- Over 1 million of rows of code, including around 5000 properties and public methods.
- Full source code debugging and availability to get support with code changes.

Terms

1) Renewals:
- Renewal for **12 months** = **50%** of the **12-month** subscription price of this product.
- Renewal for **24 months** = **50%** of the **24-month** subscription price of this product.

2) Team Discounts: We offer progressive discounts for teams of 4 and more developers. Please contact **sales@lightningchart.com** for more information.

3) Source Code: In case of purchasing a Source Code, it is to be obtained for each purchased license.
Note: LightningChart Gold & Platinum Source Codes also include Source Code for Arction Gauges.

4) Upgrades: Upgrading the subscription costs the price difference between higher tier and the subscription you currently have. For more information please contact sales.

5) Floating license: Can be installed and used by several developers on multiple machines. One developer can use a floating license at a time. This license costs 2.5 x equivalent single developer license price. Floating license needs internet connection to Arction licensing server.**

contact **sales@lightningchart.com to check the availability of a customer-side floating license service.*

*If you have any questions about custom licensing terms, e.g., for non-commercial license uses, please contact **sales@lightningchart.com**.*
